**Period for Reply** -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 12 August 2008.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**DETAILED ACTION**

1. In claim 1, it is suggested to changed “wherein at least one of the suction hole *or* the exhaust hole” at lines 13-14 to “wherein at least one of the suction hole and the exhaust hole” because of the use of “at least one of”.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 13-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The scope of the claims is not clear as the preamble “an air flow passage for a microwave oven” indicates that the claims are directed to only an air flow passage and “microwave oven” is only an intended use. However, the limitation “a suction hole formed between a plate .... and a cavity.....” clearly requires the structural components (food supporting plate and the oven cavity) as parts of the combination. Without these components of the oven, the limitation “wherein air ..... flows below the food loaded on the plate” at the end of claim 13, the limitation “the fixing terminal being formed at one sided portion of a sub-plate that supports a lower surface of the cavity” in claim 14, the limitation “a shaking preventing hole formed at an outer surface of the cavity” in claim 15 would be structurally meaningless. Clarification and correction are required.

4. Claims 1, 3-12 and 22-30 are allowed.
5. Meaningful patentability evaluation in regard to claim 13-17 cannot be made at the time being because the claimed scope is so unclear for the reasons set forth above. However, if these claims are rewritten to clearly direct to an air passage per se (that is, without any positive structural linkage of a microwave oven), these claims may be subjected to a constructive election.
6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
